

# Invitation for Research and Innovation Projects

## Kidney Research UK – Funding Research to Save Lives

### Research Objectives

Kidney Research UK wishes to support research that is relevant to the understanding of the kidneys and urinary tract and the disease processes affecting them. There is a particular desire to support work leading to improved management, treatment and prevention of kidney disease and its complications.

### APPLICATIONS ARE NOW INVITED FOR

#### Research Project Grants

*These are stand alone research projects that will advance our knowledge of kidney disease and refine current treatments or lead to new advances in the future.*

Full Research Projects are for a maximum of **£200,000 spread over a maximum period of 3 years.**

#### Innovation Grants

*These are stand alone research that will advance our knowledge of kidney disease particularly for new hypotheses where initial pilot/supporting data is required prior to a full research project.*

Innovation Grants are for a maximum of **£40,000 spread over a maximum period of 2 years.**

### Applications

All applicants must be resident in the United Kingdom and both the project and employment must also take place in a UK Establishment. Successful applicants will be expected to provide Kidney Research UK with regular reports and should be prepared to speak about their research on behalf of the Charity.

Applications must be submitted on the standard Kidney Research UK Application Forms, which are downloadable from [www.kidneyresearchuk.org](http://www.kidneyresearchuk.org)

**Closing date: Friday 2nd March 2012**  
**Applications must be received by 5pm**

### One original hard signed copy should be sent to:
