

Recipient	Institute	Project title	Awarded
PIVOTAL sites	UK Sites (51)	Nurse support for UK sites participating in the PIVOTAL trail	£ 465,817.56
ASSIST sites	UK Sites (3)	ASSIST-CKD 9a programme to spread eGFR graph surveillance for early identification, support and treatment of people with progressive CKD)	£ 19,731.00
Iron & Muscle sites	UK sites (2)	Iron & Muscle study	£ 175,278.00
Dr Kristin Veighey	Portsmouth Hospitals NHS Trust	Remote Ischaemic Preconditioning (RIPC) leads to sustained improvement in allograft function following live donor (LD) kidney transplantation. 5 year follow up in the repair study	£ 500.00
Dr Patrick Trotter	University of Cambridge	Variations in risk-appetite between UK kidney transplant centres and impact on patient and graft outcomes	£ 500.00
Dr Phillippa Bailey	University of Bristol	Will they donate? Predictors of non-donation and withdrawal in a UK multicentre prospective cohort study of potential living kidney donors	£ 500.00
Mr Pankaj Chandak	Guy's and St Thomas' NHS Foundation Trust	Clinical use of 3D printing in complex pediatric renal transplantation. A phase 2A study of the ideal framework	£ 500.00
Ms Annemarie Weissenbacher	University of Oxford	Development of an automatic regulated normothermic kidney preservation device for long-term perfusion	£ 500.00
Mr Michael Ramage	University of Edinburgh*	CT-derived skeletal muscle index correlates with residual GFR after live kidney donation	£ 500.00
Mr James Wilkins	Newcastle University	Antenatal diagnosis of renal abnormalities with ultrasound: Investigating features predictive of renal pathology and the need for surgical intervention	£ 5,000.00
Mr Raiyyan Aftab	Newcastle University	The role of avb6 integrin in the development of fibrosis following Acute Kidney Injury	£ 5,000.00
Mr Amir Parsa Salahi	University of Manchester	Analysing kidneys formed by transplanted human precursor cells	£ 5,000.00
Miss Anna Ogier	University of Bristol	Is the damage to the endothelial glycocalyx a key step in the pathogenesis of aldosterone mediated albuminuria?	£ 5,000.00
Miss Elayne Innes	University of Exeter	Does glycocalyx degradation drive chronic kidney disease and can this be prevented by a novel sulfide donor?	£ 5,000.00
Mr Adam Wild	University of Edinburgh*	Novel methods to detect acute kidney injury in endurance athletes	£ 5,000.00
Miss Elizabeth Wasson	University of Bristol	A new vascular therapeutic potential for early intervention in diabetic kidney disease	£ 5,000.00

Recipient	Institute	Project title	Awarded
Mr Rui Zhi Shum	University of Bristol	Deciphering FoxO1-Clover signalling dynamics in kidney podocytes	£ 5,000.00
Professor Matthew A Bailey	University of Edinburgh*	Generating a kidney-specific knockout of Hsd11b2 to interrogate salt-sensitive hypertension	£ 39,430.44
Professor Claire Harris	Newcastle University	Complement C5 convertase dysregulation; role in C3 glomerulopathy and stratification of patients for anti-C5 therapy	£ 39,978.54
Prof Dr John Colyer	University of Leeds	Detecting particular molecular forms of NGAL to improve AKI diagnostic tests	£ 0.35
Professor John Armour	University of Nottingham	Understanding the role of alpha defensins in IgA nephropathy	£ 35,432.00
Professor Maarten Taal	University of Nottingham	Multiparametric Renal MRI to Stratify and Monitor the Progression of Chronic Kidney Disease	£ 39,969.00
Dr Sandrine Prost	University of Edinburgh*	In situ macrophage phenotyping in ANCA-positive vasculitis in human biopsies	£ 39,898.35
Dr Sarju Raj Singh Maharjan	UCL Centre for Nephrology*	N/A - clinical and research training	£ 21,560.00
Dr Xu Chen	Leicester General Hospital	N/A - clinical and research training	£ 18,500.00
Dr Nicole Solomon	Birmingham Children's Hospital*	N/A - clinical and research training	£ 2,232.00
Dr Racquel Lowe-Jones	St George's University Hospitals NHS Trust	N/A - clinical and research training	£ 11,527.00
Dr Vicky Brocklebank	Newcastle University	Personalised management of atypical haemolytic uraemic syndrome	£ 53,874.00
Dr Hannah Wilkinson	King's College London	Localised inhibition of thrombin at endothelial surfaces - a translational strategy to inhibit immune responses to localised antigen	£ 2.00
Dr Grace Nabulo	University of Leicester	Daphne Jackson Trust Fellowship	£ 30,224.36
Dr Katherine Bull	University of Oxford	An investigation into the genetic and functional basis of proteinuric kidney disease	£ 248,199.00
Dr William Herrington	University of Oxford	Adiposity and kidney disease: observations from large blood-based prospective cohorts across a wide range of different populations	£ 186,001.00
Professor Patricia Murray	University of Liverpool	Investigating the potential of cell-based regenerative medicine therapies to ameliorate acute kidney injury and prevent progression to chronic disease	£ 40,000.00
Dr Kate Bramham	King's College Hospital	Global assessment of COAGulation defects in Kidney Disease (COAG-KD)	£ 39,035.00

Recipient	Institute	Project title	Awarded
Dr Kevin Woollard	Imperial College London*	Mechanisms of cardiovascular comorbidity in chronic kidney disease: The role of heart macrophage recruitment in cardiomyopathy	£ 193,578.00
Dr Mark Lambie	Keele University	The UK Peritoneal Dialysis Outcomes and Practice Patterns Study: UK-PDOPPS	£ 259,571.00
Dr Kate Bramham	King's College London	Observational cohort and Randomised Controlled feasibility study of nitric oxide Augmentation to prevent pregnancy-associated progression of Renal Disease (ORChARD) study	£ 199,461.24
Dr Kate Bramham	King's College London	PREgnancy-associated progression of chronic kidney Disease: development of a Clinical predictive Tool (PREDICT)	£ 110,557.24
Miss Rachel Harwood	University of Liverpool	Investigating the efficacy, safety and mechanisms of action of regenerative medicine therapies in Ischaemia Reperfusion Injury of the Mouse Kidney	£ 163,095.00
KKR Transitional clinic	Great Ormond Street Hospital	Clinical sessions for paediatric to adult transition clinic.	£ 20,000.00
Miss Lorna Marson	University of Edinburgh*	HOT2 - A blinded randomized controlled investigation into the efficacy of heme arginate in improving primary graft function in deceased donor kidney transplantation.	£ 739,116.00
Professor Detlef Bockenhauer	UCL Centre for Nephrology*	Developing cell lines for the study of HIPKD	£ 21,489.00
Dr Gavin Iain Welsh	University of Bristol	Role of the podocin/CDCP1 interaction in the pathogenesis of Nephrotic Syndrome	£ 135,591.00
Dr Aoife Waters	UCL Institute of Child Health*	Targetting Glomerulosclerosis: Novel Strategies for Steroid Resistant Nephrotic Syndrome	£ 197,999.61
Dr Kathryn Garner	University of Bristol	Modelling Angiotensin receptor-associated protein (ATRAP) interaction dynamics to define novel targets for treatment of Chronic kidney disease	£ 220,472.00
RADAR	UK Renal Registry	Re-consenting of RaDaR (15000) patients.	£ 53,506.00
Dr James Burton	University of Leicester	Validating the accuracy of novel, non-contrast, Cardiac magnetic resonance imaging in defining myocardial Fibrosis in patients with end-stage renal disease on haemodialysis: The CONFIRM study	£ 47,744.00
Dr Kevin Marchbank	Newcastle University	Testing the efficacy of new anti-complement therapies in a unique C3 gain-of-function model of kidney disease	£ 170,776.00

Recipient	Institute	Project title	Awarded
Professor Paul Roderick	University of Southampton	Ethnic differences in kidney function in childhood and the role of kidney size: the Born in Bradford Cohort Renal Study.	£ 181,563.00
Dr James Dear	University of Edinburgh*	Prevention of injury to the kidney by circulating hepatic microRNA	£ 124,122.42
Dr Neil Roberts	University of Manchester	First steps to gene therapy for congenital bladder disease	£ 73,338.50
Mr Jason Wong	University of Manchester	Enhancing the vasculature of kidneys formed by transplanted human precursor cells	£ 64,617.56
Dr Andrew Macdonald	University of Leeds	A novel therapeutic use of glibenclamide to treat BK virus associated kidney disease	£ 199,824.00
Professor Richard Coward	Bristol Royal Hospital for Children	Targeting glomerular insulin signalling to treat diabetic kidney disease: an information theoretic approach.	£ 200,000.00
Dr Phillippa Bailey	University of Bristol	What factors explain the association between socioeconomic deprivation and a reduced likelihood of living-donor kidney transplantation? A questionnaire based case-control study.	£ 43,855.00
Dr Sakari Vanharanta	University of Cambridge	Modelling therapeutic susceptibilities of the von Hippel-Lindau disease-associated kidney lesions in genetically engineered mice	£ 199,366.25
Dr Bryan Conway	University of Edinburgh*	Role Of Macrophages In Progression And Reversal Of Renal Fibrosis	£ 145,652.17
Dr Robert Steadman	Cardiff University	The role of Hyal2 in mediating hyaluronan synthase 2 antisense-dependent anti-fibrotic cell responses	£ 196,662.00
Professor Fiona Karet	University of Cambridge	Silencing mutant genotype in uromodulin-associated nephropathy: a feasibility and proof-of-principle pilot study	£ 9,000.00
Dr Jane Steele	University of Birmingham*	NURTuRE: National Unified Renal Translational Research Enterprise - HBRC Univ of Birmingham	£ 25,365.00
Professor Moin Saleem	University of Bristol	NURTuRE: National Unified Renal Translational Research Enterprise - University of Bristol	£ 135,795.00
Dr Kristian Spreckley	UK Biocentre	NURTuRE: National Unified Renal Translational Research Enterprise - UK Biocentre Milton Keynes	£ 44,549.00
Professor Maarten Taal	University of Nottingham	NURTuRE: National Unified Renal Translational Research Enterprise - University of Nottingham	£ 50,470.00
Fiona Braddon	UK Renal Registry	NURTuRE: National Unified Renal Translational Research Enterprise - UK Renal Registry	£ 35,556.00

Recipient	Institute	Project title	Awarded
Professor Richard Coward	University of Bristol	European Society of Paediatric Nephrology, Glasgow, 7-9 September 2017	£ 2,000.00
Professor Richard Coward	University of Bristol	European Society of Paediatric Nephrology, Glasgow, 7-9 September 2017	£ 2,000.00
Professor Philip Kalra	Renal Association	RA Support at UK Kidney Week, ACC, Liverpool, 20 June 2017	£ 2,000.00
Dr Matt Hall	Renal Association	Delivering Success - an update on Pregnancy & Kidney Disease, RCP London, 8 March 2018	£ 1,650.00
Professor Philip Kalra	Renal Association	RA Support at UK Kidney Week, ACC, Liverpool, 21 June 2017	£ 2,000.00
Dr Peter Gerard Jan Hohenstein	Roslin Institute	Nephrogenesis Workshop, the Roslin Institute, 22 June 2017	£ 632.00
Professor Rachel Lennon	University of Manchester	2017 International Workshop on Alport Syndrome, The Lighthouse, Glasgow, 4-6 September 2017	£ 2,000.00
Dr Arvind Nagra	University Hospital Southampton NHS Foundation Trust	Working Together to Manage Paediatric Onset Renal Conditions Moving into Adult Services, Southampton General Hospital, 2 Feb 2018	£ 2,000.00
Dr Kieran McCafferty	Barts Health NHS Trust	Diabetes: at the forefront of Kidney Disease, Royal Society of Medicine, 22 Feb 2018	£ 2,000.00
Dr Shuman Haq	University Hospital Southampton NHS Foundation Trust	British Association for Paediatric Nephrology (BAPN) Winter Meeting, 11 and 12 January 2018, Manchester	£ 700.00
Dr Matthew Graham-Brown	University Hospitals of Leicester NHS Trust	Renal Association SpR Club spring meeting, 10 and 11 March 2018, Leicester	£ 2,000.00
Dr Elham Asgari	Guy's Hospital	Renal Regenerative Medicine Education Day, RSM London, 12 April 2018	£ 2,000.00
Professor Jamie Davies	University of Edinburgh*	Advancing the state-of-the-art of kidney tissue engineering.	£ 62,925.99
Dr Kevin Marchbank	Newcastle University	Investigating the trigger events in atypical haemolytic uremic syndrome using a unique conditional C3 gain-of-function knock-in mouse.	£ 62,826.43
Professor Matthew A Bailey	University of Edinburgh*	Using Mass Spectrometry Imaging to resolve corticosteroid action in the aldosterone-sensitive distal nephron	£ 62,237.00
Dr Alexander D. Lalayianis	Great Ormond Street Hospital	Is abnormal bone mineralisation associated with vascular calcification in children and young adults with chronic kidney disease?	£ 166,569.80
Ms Victoria Banwell	MRC Centre for Inflammation Research	Targeting fibrosis in chronic allograft damage	£ 173,229.22
Dr Melanie Chan	Royal Free London NHS Foundation Trust	Functional Genomics of Congenital Anomalies of the Kidney and Urinary Tract (CAKUT)	£ 244,273.08

Recipient	Institute	Project title	Awarded
Dr Eoin O'Sullivan	Royal Infirmary of Edinburgh*	The influence of injury and aging induced senescent cells on the progression and reversal of kidney fibrosis and the impact of their depletion upon outcome	£ 244,759.85
Dr Rhys Evans	University College London	Investigation and targeting of sodium in autoimmunity and inflammatory kidney disease	£ 274,554.05
Dr Ragada El-Damanawi	Cambridge University Hospitals NHS Foundation Trust	Assessing disease modifying therapies in Autosomal Dominant Polycystic Kidney Disease (ADPKD)	£ 220,263.00
Dr Jennifer Lees	University of Glasgow*	Vitamin K in Transplanted kidney Organ Recipients: Investigating vEssel Stiffness (ViKTORIES)	£ 171,115.00

Total amount awarded:

£ 7,516,117

* Denotes grant made to a trustee or an institution with which they are related.
