

Get involved
£2 per guess

Guess the number of kidneys.

Can you guess how many kidneys there are in this image?

Donate £2, write your name and guess and you could win a fun prize.

The person responsible for collecting the money is _____

The winner will be announced on _____

Name	Guess	Name	Guess	Name	Guess

Help us be heard, make a difference, change the future. Kidney disease ends here.

How to play

1. Fold and stick the corner of the poster to hide the winning number. 2. Stick the poster up at work, at school, in the office, in your kitchen, wherever you want. 3. Ask everyone to donate £2 to write their guess and their name here (arrow pointing to table with Name and Guess). 4. Once everyone has made their guess, it's time to fold back the corner to reveal the winning number. 5. The closest guess will win: (Box to let people write what the prize is that they will win).

How to pay your money in: Online: www.kidneyresearchuk.org By phone: 0300 3031100 with your debit/credit card By post: Send a cheque payable to 'Kidney Research UK' with your details on the back to – Kidney Research UK, Nene Hall, Lynch Wood Park, Peterborough, PE2 6FZ.

Sweepstake conditions: 1. This sweepstake is an exempt lottery under the Gambling Act 2005. 2. The person named above is responsible for the sweepstake and is fundraising in aid of Kidney Research UK. 3. People may only take part if they are 16 or over and all work or live in the same set of premises. 4. The prize could be sourced separately, or it could be half of the proceeds from the sweepstake. 5. If the prize is half of the sweepstake the rest of the money helps to fund vital research into kidney disease. 6. Participants must know what the prize is before their guess. 7. The closest guess wins.
